III. Intent of Petition:

The applicant is requesting a Small-Scale Future Land Use Map Amendment to change the land use designation of a 1.10 acre parcel of land from Commercial High (CH, PBC) to Commercial (COM). The subject property is located on the north side of Okeechobee Blvd, west of Target. The commercial land use will help address the identified deficit of commercial land within the Village boundaries. Staff has reviewed the petition and found it in compliance with the Village’s Comprehensive Plan and Code of Ordinances.

IV. History:

The subject property is located on the north side of Okeechobee Blvd, west of Target. The property was recently annexed into the Village boundaries by the adoption of Ordinance 769

on December 21, 2006. The property currently supports an automobile service station which is a permitted use within the Fox DRI.

V. Analysis:

In reviewing the proposed Future Land Use Map Amendment designating the parcel as Commercial (COM), Village staff considered compatibility with adjacent land uses, consistency with the Village's Comprehensive Plan, and concurrency-related issues.

Compatibility with Adjacent Properties:

The requested Commercial (COM) designation will allow all land uses permitted within the General Commercial (CG) zoning district. The site is located adjacent to residentially zoned property to the north and west. There is a 210-foot drainage easement between this site and the residential property that will minimize adverse impacts the commercial development may have upon the residential property. The subject site is located off of Okeechobee Blvd. where significant commercial development already exists. As such, the requested COM future land use designation is compatible with adjacent surrounding land uses.

Consistency with the Comprehensive Plan:

The change of land use for this 1.10 acre parcel of land is consistent with the need for additional Commercial Land Uses. The proposed amendment is consistent with the Village of Royal Palm Beach's Comprehensive plan.

Future Land Use Element:

Goal 1.1: A mix of compatible land uses which meets the needs of the Village residents and is developed concurrently with the needed infrastructure and facilities

Objective 1.1.1: Development orders and permits for development and redevelopment activities shall be issued only in those areas where suitable topography and soil conditions exist to support such development.

Objective 1.1.2: Development orders and permits for development and redevelopment activities shall be issued only in areas where public facilities necessary to meet level of service standards (which are adopted as part of the Capital Improvements Element of this Comprehensive Plan) are available concurrent with the impacts of development.

Concurrency

The proposed land use change will have no adverse impacts on public facilities since governmental services have already been accounted for prior to annexation. As such, concurrency-related issues have been addressed and are as follows:

Traffic:

The applicant has obtained a TPSO approval from the County Traffic Division for the existing land use.

Drainage:

The applicant has demonstrated that the site has legal positive outfall with regard to storm water drainage.

Potable Water and Sanitary Sewer:

Palm Beach County currently provides potable water and sanitary sewer service to this location. There is adequate capacity to serve this site.

School Concurrency:

Not Applicable.

Fire-Rescue:

Site is serviced by Station 29 with an average response time of 6:09.

Parks and Recreation:

N/A.

Overall, the proposed future land use amendment is consistent with the Village's Comprehensive Plan, compatible with adjacent land uses, and meets all relevant concurrency level of service standards. In addition, the amendment is consistent with the Treasure Coast Regional Planning Council's Strategic Regional Policy Plan (SRPP), as well as Chapter 163, F.S., concerning the requirements for the processing of future land use amendments.
