## About this Report

As part of its participation in The National Citizen Survey™, the Village of Royal Palm Beach conducted a mailed survey of 1,600 residents. Surveys were mailed to randomly selected households in February and March 2018 and data were collected through April 13, 2018. After the official data collection period was underway (see the report, *The National Citizen Survey: Community Livability Report, Royal Palm Beach, FL, 2018*), the Village made available a web-based survey to its residents through a link on the Village's website. Visitors to the site were able to complete the survey between March 28, 2018 and April 13, 2018 and 164 surveys were received.

This report contains the results of this administration of the web-based survey that have not been weighted to current population estimates of Royal Palm Beach.

# Complete Survey Responses

The following pages contain a complete set of responses to each question on the survey, excluding the “don’t know” responses. The percent of respondents giving a particular response is shown followed by the number of respondents (denoted with “N=”).
