Key Concepts You Need to Know

Workflow: Sequential set of business activities starting from Upload and Submit to downloading the approved plans.

Task: An assignment in the workflow process.

eForm: Online electronic form designed to capture, validate, and submit data.

Accepting a Task: Accepting a task is an important part of the electronic plan review process. Accepting a task provides access to that task's eForm. The user who accepts the task is responsible for completing the associated actions, including uploading files and making necessary corrections requested by the jurisdiction.

Completing a Task: The completion of a task confirms the fulfillment of the requested actions. Completing a task is the only way the jurisdiction will receive notification that you are finished. Once a task is complete no further work may be done until another task is received and accepted.

Upload and Submit

You will receive an email with a link to start your Upload and Submit task. Click **Start Task** within the email to open the ProjectDox login screen in your browser. Once logged in, your task eForm will open.

You can also accept the task and open the eForm by clicking on **Accept** or the Upload and Submit link on the Home Page Tasks tab.

Review the submittal requirements as outlined by the jurisdiction and upload to the appropriate folder(s).
